HEALTH & WELLNESS
SCHOOL HEALTH & SAFETY POLICIES REVIEW

During the 2013-14 school year our Health and Wellness committee has met on several occasions.

In accordance with state regulations, our Wellness Committee sent out a School Health Index Survey to evaluate our school's progress.

The results were very positive, the modules scoring as follows:

School Health and Safety Policies: 91.9%
Health Education: 92.9%
Physical Education: 87.2%
Nutrition Services: 92.8%
Health Promotion for Staff: 26%
Family and Community Involvement: 83%
School Health Services: 100%
School Counseling: 94.4%

While we have areas that will continue to be works in progress, we believe our Wellness policy is very successful. We have identified the areas needing improvement and will continue to work on creating the most positive and healthy environment for all our students and staff.
