

How to Change Apple ID on iPad / iPad Mini

Apple iPads and iPad Minis are setup with the basic Sayles School iTunes account (saylesitunes@saylesschool.org).

Staff members who maintain their own iTunes account and need to keep their apps separate from the common student apps must change this base iTunes account. It's also easy to create a new iTunes account if you don't already have one.

To change the Apple ID follow these simple steps:

1. Tap the Settings icon	
2. Select "iTunes & App Stores"	
3. The current Apple ID will be displayed	
4. Tap the address to change	
5. Select Sign Out	
6. The Apple ID is now blank	

To link a new Apple ID follow these steps FROM Step 6 above:

7. Tap the address to change	
8. Type the new Apple ID username and password in the space provided	
9. The new Apple ID is now displayed
